

Customer Name: MR PANCHO  
Service Address: 1500 FISHER ST FC4  
Account Number: 231597-48870  
Cycle/Route: 04-20  
Class: General Service

Billing Date: February 17, 2023  
**Amount Due:** \$ 3,292.94  
  
Due Date: March 13, 2023

Community Q&A

**Q: What is the OESP?**  
A: The OESP is an Ontario Energy Board program that lowers electricity bills for lower-income households. The OESP provides a monthly credit to eligible customers based on household income and household size. The OESP credits are applied directly to eligible customers' bills. The amount of the monthly credit will depend on how many people live in your home and your combined household income. If you have previously been approved for OESP, depending on when you were accepted, you will see your eligibility expire and may need to reapply.

**Q: How do I apply to the OESP?**  
A: Learn more/apply today @ OntarioElectricitySupport.ca or call 1-855-831-8151. For assistance with your application OR other support opportunities, please visit or contact Low Income People Involvement of Nipissing (L.I.P.I) - 705-472-1337.

The Ontario Energy Board (OEB) approved changes to North Bay Hydro's distribution rates effective May 01, 2022 – please see [www.northbayhydro.com](http://www.northbayhydro.com) for the Tariff of Rates and Charges.

The OEB also announced a new initiative that allows residential and small business customers the choice between traditional TOU pricing and Tiered prices. More information can be found at [www.northbayhydro.com](http://www.northbayhydro.com) or at [www.oeb.ca](http://www.oeb.ca).

The OEB has also announced that electricity prices for households and small businesses will change as of November 01, 2022 under the Regulated Price Plan (RPP). The winter Time-of-Use (TOU) hours and the change in the Tier threshold for customers on Tired pricing will take effect November 01 as usual - please see [www.oeb.ca](http://www.oeb.ca) for more details.

**Scammers are everywhere.**

North Bay Hydro works hard to protect our community.

**Here are some tips to stay safe:**

- We will never threaten to disconnect power immediately
- We never disconnect power without first contacting customers through multiple channels
- We will never ask a customer to call a 1-800 number to make such a payment
- We will never ask for payment by pre-paid card and we don't accept bitcoin

If you are ever in doubt, hang up and call us at 705-474-8100.

General Information

Failure to receive a bill does not entitle non-payment as a bill reprint is always obtainable by contacting Customer Service by Telephone or email. Avoid postal delays and lost invoices by registering for E-Billing service.

Accounts not paid in full by the due date will be assessed an interest penalty.

Any unpaid portion of your bill will appear as a Previous Balance on the next regular bill. Previous Balances must be paid immediately in order to avoid collection charges and possible disconnection of service.

Security deposits are at the discretion of the utility and can be required where a customer cannot prove good payment history with another utility, or if, during a one-year period, a customer has received more than one disconnection notice from the utility; more than one cheque or pre-authorized payment returned for insufficient funds; or a disconnect/collect trip has occurred.

Equal Billing and Pre-Authorized Payment Plans are available. Contact Customer Service for more information.

For customers who have signed with an electricity retailer, your Invoice Bill Ready amount provided to us by your retailer will appear under the heading "Your Electricity Charges".

Customers with retailer contracts are not eligible for Time-of-Use pricing.

Moving? Minimum 48 hours notice is required.

Going on vacation or away for an extended period? Consider Pre-Authorized Payment or our E-Billing solutions. Making arrangements in advance will help you avoid interest penalties, collections action or possible disconnection of service.

Your Bill Details

Account Number: 231597-48870

Summary

Previous Balance (may include interest charges)	\$ 2,943.99
Payments received since last bill	\$ 0.00

Glossary of Terms

Electricity

This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition.

Delivery

These are the costs of delivering electricity from generating stations across the province to North Bay Hydro Distribution Limited then to your home or business. This includes the costs to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems.

A portion of these charges are fixed and do not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use.

The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business.\* North Bay Hydro Distribution Limited collects this money and pays this amount directly to our suppliers.

*\*When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business.*

Regulatory Charges

Regulatory Charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid and include the costs associated with funding Ministry of Energy conservation and renewable energy programs.

Debt Retirement Charge

The debt retirement charge pays down the debt of the former Ontario Hydro.

Global Adjustment

Electricity generators in Ontario receive a combination of payments from the operation of the wholesale market, payments set by regulation and payments under contract. Your portion of the net adjustments arising from these and other authorized payments is included on your bill as the Global Adjustment.

RPP Settlement

If you leave the Regulated Price Plan, you will receive or pay your share of the difference between the amount RPP consumers have paid for electricity and the amount that has been paid to generators.

**Note:** For a detailed explanation of electricity terms, visit [www.northbayhydro.com](http://www.northbayhydro.com) or [www.oeb.gov.on.ca](http://www.oeb.gov.on.ca).
